Mr. Bob Wright  
Bob Wright Realty  
2200 E. Sunshine  
Springfield, MO 65804

Dear Mr. Wright:

This office recently received a copy of a letter from the Water Pollution Control Section of the City of Springfield to you concerning a discharge of water from the 7-11 Store at 305 North Patterson.

Please note that Section 204.051 of the Missouri Clean Water Law states that it is unlawful for any person to discharge a water contaminant unless he holds a permit from this agency. The permit contains restrictive limits on the quantity of contaminants that can be discharged.

I suggest that you eliminate the discharge of water and oil from your property. If the discharge cannot be eliminated, a permit must be obtained. The permit would require quarterly monitoring of the water and the removal of the oil.

Your prompt reply concerning your intentions in this matter will be appreciated and expected.

Yours truly,

Charles L. Kroeger  
Environmental Specialist II  
Springfield Regional Office  
Department of Natural Resources

Mr. Bob Wright  
Bob Wright Realty  
2200 East Sunshine  
Springfield, Missouri 65804

Dear Mr. Wright:

On March 7, 1979, the Water Pollution Control Section of the City of Springfield, Missouri investigated a complaint at a Seven-Eleven Store at 305 North Patterson concerning the pumping and ultimate discharge of water from the property.

An inspection revealed that this discharge apparently originates from a sump pump used to remove water from the ground around an underground structure, possibly a gasoline storage tank. This discharge appeared to contain an oily substance at the time of inspection.

Please be advised that the discharge of pollutants from your property constitutes a violation of City, State and Federal Law. This office would advise you to contact the Missouri Department of Natural Resources, 1155 East Cherokee, Springfield, Missouri 65807, to determine if this discharge is in compliance with applicable laws and if a discharge permit is required.

If you have any questions please do not hesitate to call.

Yours truly,

J. Randall Lyman  
Water Pollution Control Inspector III  
Surveillance and Enforcement
